

## Semi-Automatic Thermal Lamination Machine

With Manual Feeder

Memory Thermal Lamination Machine is the latest trend & suitable for Sheet to Roll Lamination with BOPP films. The machine is widely used in Packaging, Box Making, Books, Advertisements, Photo Albums & Digital Prints.

### Features

- Manual Hydraulic Pressure Roller for even & wrinkle free lamination.
- Large hard chrome plated & thermostatically control pressure roller.
- Silicon Nipping Roller.
- Digital Temperature Controller.
- Long manual feeding table with side gauge for faster & easier feeding of long sheets.
- BOPP Film slitting attachment.
- Operator friendly control panel with Digital temperature controller.

**Optional** - In-line divisional cutting device.

### Other Products

- Both Side Thermal Lamination suitable for Photo Albums, Digital Prints & Documents.
- Fully automatic thermal lamination with auto paper feeding & in-line divisional cutting device.
